

## Building Sustainable Cities Through Green Innovation

As part of our vision of bringing green technologies out of the garage and into local communities, [OnGreen](#) is partnering with [The University of Southern California Energy Institute](#), [USC Stevens Institute](#), [CleanTech Los Angeles](#) and [Metropolitan Water District](#) in Los Angeles and co-hosting an invitation-only reception on November 16th, 2010. The objective of this reception is to raise awareness of green innovation and research and development opportunities in Los Angeles and their applications in building sustainable cities.

Key invitees include Mayor Antonio Villaraigosa, Raphael Bostic (Assistant Secretary from the [Department of Housing and Urban Development](#)), and a representative from the [OECD](#) in Paris.

The event will primarily be an opportunity to network with a diverse group of people involved in the Clean Tech sector, including over 20 venture capitalist firms, entrepreneurs and other experts in the space. We will also have entrepreneurs presenting new technologies, faculty previewing innovative research, and key decision makers discussing green tech growth opportunities in Los Angeles.

OnGreen and our partners are proud of the relationships we have built with our sponsors and invite you to become one for our November 16th event. If you are interested, please see our [sponsorship package](#) for more information and send all sponsorship inquiries to: Mark Bernstein | [mabernst@usc.edu](mailto:mabernst@usc.edu) | 213.821.2588

\*\*\* If you are interested in being considered for demonstrating your technology at this program, please click [here](#).

Please note that this is an INVITATION-ONLY event. If you are interested in joining us at future events in your area, please send us an email to: [events@ongreen.com](mailto:events@ongreen.com) indicating your interest.
