

## OnGreen takes Cleantech Capital Roadshow to China

**\$2,032,697,531**

TOTAL FUNDING SOUGHT

As OnGreen crosses the [\\$2 billion mark](#) in amount sought, we are also kicking off a [China Capital](#)

[Roadshow](#) to accelerate investment in clean technology. After the first event in Los Angeles in May, our team will be heading to Jiangsu and then Shanghai in late June.

Entrepreneurs from OnGreen.com will connect with Chinese investors from the public and private sectors in matching and networking sections. Apply today to be one of the 30+ companies selected for this Roadshow! [The CEOs of the first five companies selected will receive complimentary round trip airline tickets!](#)

Apply today

## OnGreen heads to Washington D.C. and hosts a networking reception with Latham & Watkins

Building on OnGreen's mission to drive funding to the best clean technologies, the executive team heads to Washington D.C. to promote cross-sector collaborations in the cleantech industry. Latham & Watkins and OnGreen are hosting a VIP joint reception for members and supporters of the renewable energy community on May 10th.

If you are interested in attending, email us at [contact@ongreen.com](mailto:contact@ongreen.com).

About Latham & Watkins

What's New?

## OnGreen helps oversubscribe HKTDC cleantech investment mission.

OnGreen helped to secure eleven companies to participate at a [Hong Kong Trade Development Corp](#) investment mission in Los Angeles this month. The event May 5-6th will consist of a networking luncheon and briefing session along with private business matching sessions with investors for a sub-set of companies selected by OnGreen and the HKTDC. Some companies include [Eliosolar](#), [k Power](#), and [Cyber Rain](#).

Press Release

Spotlight Entrepreneur and Company

## Innovating zero-emission trucks

Meet [Michael Simon](#), [President and CEO of Transpower](#). SoCal based company and an OnGreen Featured Deal, Transpower supplies all of the hardware and software required to operate trucks electrically through kits customizable by truck vehicle models. They've just announced they received three new grant

funding commitments, with a combined value of nearly \$3.8 million. The separate awards will be used to support development and demonstration of electric port trucks, to develop and demonstrate electric yard tractors, and to demonstrate TransPower's "Grid-Saver" fast energy storage system for stationary power applications.
