

What are community reviews and why are they important?

Every project posted on the [Green Exchange](#) provides our members the ability to provide comments, inputs and feedback to the entrepreneurs. Once you are logged in and go any deal deal in the Green Exchange, you will see a button like the one below.

Upon clicking the button above, you will be given a questionnaire which you can complete to provide your valuable feedback on the deal. You can help the entrepreneur better understand the market and competition, as well as make connections with other industry players in their category. Providing reviews will not only help build your own activity history within OnGreen but also earn you 20 OnGreen points per review.

If you are an entrepreneur who has posted a project or is planning to post one on the [Green Exchange](#), we suggest you solicit feedback from any experts and advisers to also provide feedback on your deal.

Click [here](#) for an example of a review.

It is quite easy to provide a community review. Go ahead and give it a shot. Click [here](#) and don't forget to [login](#) to your OnGreen profile or [create a free account](#) if you don't already have one.

Thank You,
[Stanley Holt](#)
