Bringing cleantech stakeholders from around the world:

OnGreen Accelerate CleanTech Conference

This month, OnGreen opened registration for the first [OnGreen Accelerate Global CleanTech Conference](#) taking place October 11-12th. Register before August 31st for 50% off the ticket price.

Accelerate welcomes late stage cleantech companies and startups from across the cleantech ecosystem to showcase their technology at the Accelerate Expo Pavillion. Accelerate has created an affordable "Innovator" exhibitor package that guarantees exposure on the pavillion floor, access to all keynotes, panels as well as entry to the official Accelerate networking reception.

Bridging the gap between policy and cleantech in D.C.

OnGreen's Newest Director of Business Development

G. Nagesh Rao joins OnGreen as our newest Director of Business Development. His role will center around building new corporate and key government relationships that help cleantech companies find capital and tap the global market.

Before joining OnGreen, Rao served as a Senior Policy Advisor for the Department of Commerce's Office of Innovation and Entrepreneurship on special assignment for the **United States Patent and Trademark Office**. Wherein he was a co-creator of the i6 Green grant challenge (a deliverable for the White House's StartUp America Initiative). Recently, Rao was an invited attendee for the **exclusive launch of Venture for America** due to his early support for the initiative.

Press Release

OnGreen Webinars

OnGreen Hosts Webinars with U.S. Department of Commerce and Shaub & Williams

Last week OnGreen hosted two webinars with the US Department of Commerce and Shaub & Williams. Attendees received insights into intellectual property protection and tips on negotiation strategies in China.

Visit www.ongreen.com/webinars to download previous powerpoint presentations.

Webinars

Spotlight Company **QuantumSphere, Inc.**

QSI designs and manufactures high performance catalysts used to reduce costs and increase efficiency in large specialty chemical and energy storage applications. QSI follows a disciplined approach to market by addressing high value applications in carefully selected sectors. Lead segments include more efficient chemicals production; followed by the emerging metal air battery sector for military, large-scale grid storage, and electric vehicles. QSI products have unique properties that create superior results with cost-effective scalability.
